SATAjet 1500 B SoLV – The solvent solution

SATA extends an invitation to technicians using solvent paint products who would like to take advantage of SATA's quality and reliability at an affordable price. For those who have or have not used SATA spray guns before, step-up and give the SATAjet 1500 B SoLV a try.

The SATAjet 1500 B SoLV provides fine finishes with cost saving transfer efficiency, keeps the required wetting using today's **Low VOC exempt solvent basecoat** or the more traditional **National Rule solvent basecoats**. The SATAjet 1500 B SoLV is also a good choice for **clearcoat** appearance, while meeting transfer efficiency and profitability expectations.

The nozzle system of the SATAjet 1500 B SoLV meets the demands for topcoat applications and delivers even material distribution throughout the entire pattern. It offers to solvent and **Low VOC application** the flexibility painters expect from a SATA gun. The balanced design provides comfort and ergonomics, and the easy-to clean durable surface of the spray gun will work with any solvent-based material.

The SATAjet 1500 B SoLV offers the performance required to achieve quality finishes.
